

Pharmacogenomics Certificate Program

Schedule

Date	Topic
Week 1 (Jan 5 – Jan 11)	Pharmacogenomics Fundamentals
Week 2 (Jan 12 – Jan 18)	Genetic Variation and Clinical Pharmacology
Week 3 (Jan 19 – Jan 25)	Interpreting Genotyping Tests and Pharmacogenomic Evidence
Week 4 (Jan 26 – Feb 1)	Drug-Induced Hypersensitivity Reactions
Week 5 (Feb 2 – Feb 8)	Pain, Neurology, Psychiatry
Week 6 (Feb 9 – Feb 15)	Cardiology
Week 7 (Feb 16 – Feb 22)	Germline Oncology and Supportive Care
Week 8 (Feb 23 – Mar 1)	Clinical Implementation of Pharmacogenomics

Participants should expect to spend approximately 3 hours per week on this program. This includes a weekly video, online exercise, and online discussion post. Exercises and discussion posts are due at the end of each week (e.g., Week 1 due date is Jan 11). Participants will be asked to complete a pre-test (prior to Jan 11) and a post-test (due Mar 8). Participants must receive a 70% or better on each of the exercises and a 70% or better on the post-test. Two attempts will be allowed for each exercise and the post-test. Participants must attend two live video chats (during Week 4 and Week 8).

This practice-based program includes **24 hours of continuing education credit** for **pharmacists** (CPE), **nurses** (CNE with 15 hours of pharmacology CE) and **physicians** (CME).

Additional questions about the program should be directed to Christina.aquilante@cuanschutz.edu
