Join fellow faculty and trainees for our Seminar Series in Innovation & Entrepreneurship

This series was developed to foster entrepreneurial thinking in our research programs, clinical environments, educational endeavors, and service components.

Innovation & Entrepreneurship Seminar Series

Sponsored by the SSPPS Director of Innovation & Commercialization

**When: Dec. 17, 2024 12-1pm, MT
Where: SSPPS Building, Room 4000 (V20-4000)**

Our Seminar Series speaker will be Jeff Hval, co-founder and Chief Pharmacist for STAQ Pharma (<https://stagpharma.com/>), a 503B Outsourcing Facility, Jeff Hval brings over 20 years of sterile drug formulation and compounding expertise to the role. His leadership encompasses all cGMP drug manufacturing processes, including sterile drug formulations and regulatory compliance.

With a significant background in pharmaceutical product development and hospital pharmacy management, Jeff has a keen understanding of the critical needs for ready-to-administer doses in hospitals. As a multi-state licensed pharmacist, Jeff holds quality and regulatory compliance in the highest regard, ensuring that all operations meet stringent FDA and State Board of Pharmacy standards.

Prior to co-founding STAQ Pharma, Jeff founded and expanded QualMed Pharmacy into Colorado's largest hospice infusion provider. His experience in hospital pharmacy operations and entrepreneurial success showcase his passion for innovation and ensuring patients receive safe and effective medication.
