Honoring pharmacists on a global scale

World Pharmacists Day was Sept. 25, but at CU Pharmacy, every day is dedicated to advancing pharmacy on a global scale. In a recent **World Pharmacists Day** presentation, a spotlight shined on that work.

Dean Ralph Altieri, PhD, who is the International Pharmaceutical Federation's [FIPEd Chair](#), discussed efforts to advance pharmacy in Egypt. **Director of Practitioner and International Development Jodie Malhotra, PharmD**, highlighted the school's global education outreach efforts. (Their presentations are available at the timestamps 1:05:00 and 1:27:00 in the linked recording below.)

Recognition will continue through October as we celebrate **American Pharmacists Month!** Follow along on social media all month as we highlight the work of the CU Pharmacy community.
